

## **City of North Platte, NE, Mapping Issue (Lincoln County)**

### ***Problem***

LOMR Case No. 07-07-0322P was intended to be incorporated into the Lincoln County DFIRM, but it did not become effective until after the LFD date. Therefore, the LOMR was not incorporated into the DFIRM and was not listed in the Final SOMA that accompanied the LFD. Lenders have begun to require flood insurance for certain properties with MT-1 determinations listed under Category 2 of the SOMA, even though Case No. 07-07-0322P removed many from the SFHA.

### ***Resolution***

- Panels 31111C0620 C and 0860 C of the DFIRM for Lincoln County have been corrected to show the effects of Case No. 07-07-0322P.
- Coordination is ongoing to provide proofs of revised panels and DFIRM products to the MSC to send to the City of North Platte and Lincoln County.
- Corrected DFIRM products and maps will be sent to the MSC no later than 11/25/2008.
- The SOMA has been revised to include Case No. 07-07-0322P and the revised SOMA will be provided to the City of North Platte and Lincoln County by 12/5/2008.
